Cong Nguyen

UI/UX Design

I have been pursuing the core value that always puts users and their needs first in every planning and execution.

April, 2018 -

UI/UX Design
at F88 Financial Service (FFintech)

As a UI/UX Design at the F88 Financial Service, i've been part of the financial institution with almost 1000 stores nationwide. My role there is to help different groups within the company to design and test new products (Website, Mobile Apps) To create the best support tools for departments.

March, 2015 - April, 2018

UI/UX Design, Front-end Developer
at Subiz Live Chat

As a UI/UX Design and Front-end Developer at the Subiz Live Chat. My team and I have built an effective sales and engagement platform for businesses. Help increase customers, keep customer records, talk to them through any channel.

2010 - March, 2015

UI Design, Front-end Developer
at VNB GROUP

My role here is to design website interfaces and convert them to HTML/CSS. Here I was exposed to many different fields: Game site Script, Travel, Hotel, Real estate, news, visa application,...
